Mikron Technology Group

Mikron free of debt

Mikron has taken a further important step along the road to rebuilding a healthy company: a few days ago it repaid its outstanding debts to an international consortium of banks and several institutional investors in the United States. As a result, the Mikron Group is now free of debt. With its available liquidity and a new credit arrangement with Credit Suisse, the Group is in a position to further strengthen its core activities.

Additional questions and management interviews:

Patrick Brisset

Coordinator Corporate Communications
