

# COME AND JOIN US.

**Mikron Automation** is the leading partner for scalable and customized assembly systems – from the first idea to the highest performance solutions. Mikron's expertise and proven track record guarantee the most productive solution to assemble customer products at each stage of their lifecycle.

For our Boudry site we are seeking a

## Validation Engineer (m/f/d)

You understand the challenges and expectations of our customers regarding the validation/qualification of our assembly systems. You will ensure the internal process in close collaboration with the project team and the clients. Your communication skills, your team spirit and your rigour will enable you to carry out your missions and participate in the success of our projects.

### Your main tasks

- \_ Leading validation/qualification activities on projects (including risk analysis, protocol writing and test execution during FAT/SAT)
- \_ Produce and maintain validation/qualification documentation starting from the design phase of the projects (mechanical, software & hardware)
- \_ Be the central point of contact between the client and the internal project team for all matters related to projects validation/qualification

### Your profile

#### Education and experience:

- \_ Higher education in a technical field (preferably in the pharmaceutical or medical sector)
- \_ Experience in validation/qualification (an asset)
- \_ Experience in the pharmaceutical or medical industry (an asset)
- \_ Experience in the special machinery and/or product assembly industry (an asset)

#### Languages:

- \_ Good knowledge (oral and written) of English

- \_ Knowledge (oral and written) of German and/or French (an asset)

#### Qualities:

- \_ Interest and interdisciplinarity: understanding of validation/qualification needs in the pharmaceutical/medical sector and understanding of our assembly systems (mechanical, software, hardware)
- \_ Team spirit, communication and writing of technical documents
- \_ Availability for business travel (≤20%)

### What we offer

- \_ The opportunity to tackle concrete and diversified technical challenges with a high degree of freedom in collaboration with interdisciplinary project teams and clients
- \_ A company focused on customer satisfaction and teamwork in a constantly evolving technical field
- \_ An international, multicultural, convivial, and dynamic environment

### Are you interested?

Then don't hesitate and send your application (CV, cover letter, diplomas and certificates) to our Human Resources Department, to the attention of Mr. Yannick Arrigoni.
