For our Boudry site we are seeking a

## Validation Manager (m/f)

As a Validation Manager, you will lead the validation/qualification team and be the point of contact for our customers on validation-related projects. You will also maintain the validation/qualification status of our various products and processes. Your communication and documentation skills allow you to carry out the tasks allocated to you. Your recognized qualities include your service-orientation, integrity and team spirit.

### Your main tasks

- \_ Management and leadership of the Validation/Qualification team
- \_ Maintain and improve validation/qualification know-ledge of our company
- \_ Ensure harmonization with other sites and organize global qualification meetings
- \_ Maintain planning and time allocation according to project status and monitor project tasks completion as per planning
- \_ Annual review for team members, set personal and team objectives
- \_ Information and communication on company figures, new projects, forecasts and internal projects
- \_ Support team members on their employee life cycle
- \_ Master customer escalation, provide support to the team and other internal stakeholders
- \_ Support other departments for validation/qualification topics
- \_ Fond experience in pharma/medical industrial environment
- \_ Strong documentation and MS Office skills
- \_ Languages: Proficient in English and German (written and spoken). Good knowledge of French: an asset
- \_ Knowledge of relevant regulation and guidelines related to automated manufacturing equipment (FDA, GAMP5)
- \_ Internationally-oriented and willingness to travel

### What we offer

- \_ A motivating, challenging position with progression opportunities inside a company which pays attention to the continuous training needs of its staff, quality and customer satisfaction
- \_ A multicultural, collegial, dynamic team
- \_ A work-focused and continuous improvement-oriented environment
- \_ The opportunity to tackle a large number of challenges in a technical environment
- \_ An open-minded and human company culture

### Your profile

- \_ Bachelor or master’s degree in mechanical, electrical or software engineering
- \_ Good knowledge of validation/qualification processes in pharma/medical manufacture environment
