For our Singapore site we are seeking a

## Validation Engineer (m/f)

### Your main tasks

- \_ Supporting project teams during the design phase, delivering the required documentations (FS, FDS, SDS, HDS, pFMEA, etc.)
- \_ Ensuring design documentation is kept up to date throughout the project
- \_ Leading risk analysis meetings (pFMEA), internal reviews and reviews with customers
- \_ Creating Factory Acceptance Test and Site Acceptance Test documentation packages and leading verification activities
- \_ Supporting other departments (Sales, Customer Service, Marketing) with validation related topics
- \_ Proposing continuous improvements in your area of competency

### Your profile

- \_ Bachelor's or master's degree in mechanical, electrical or software engineering
- \_ Good knowledge of qualification processes in pharma/medical and manufacturing environments
- \_ Strong documentation and communication skills
- \_ Languages: proficient in English. Chinese would be an asset
- \_ Willing to travel (around 10%)
- \_ Team player, willing to push limits to achieve shared goals

### What we offer

- \_ A motivating, challenging position with progression opportunities inside a company which pays attention to the continuous training needs of its staff, quality and customer satisfaction
- \_ A multicultural, collegial, dynamic, team work-focused and continuous improvement-orientated environment
- \_ The opportunity to tackle a large number of challenges in a technical environment
- \_ An open-minded and human company culture
