

For our Cutting Tool division in Monroe we are seeking a

## Cutting Tool Specialist (m/f)

Mikron Machining, a division of the Mikron Group, is the leading supplier of customized, highly productive machining solutions for the manufacturing of complex high-precision components made of metal. The business line Mikron Tool develops and produces precision and high-performance small to medium-sized cutting tools for the high-end market.

### Your main tasks

- Promoting standard and special cutting tools for metal machining and providing technical information regarding Mikron Tool's capabilities
- Providing overall technical support to our customers
- Analyzing actual machining processes together with customers and suggesting improvements
- Defining tooling processes and their tools with Mikron's tool experts and testing at customers' facilities
- Working with representatives and distributors
- Quoting for special and standard tools and related services
- Finding new accounts
- Providing back-up for all technical consulting and advisory customers, representatives and distributors
- Participating in specific shows

### Your profile

- Experienced in cutting tool technology
- Expert knowledge of:
  - Metallurgy, metal alloys and carbide
  - Machining processes in drilling, milling and tapping
- Systematic and analytical way of thinking
- Good presentation and communication skills
- Self-motivated
- Willing to travel up to 50% of the time
- US citizen or permanent residence status in the USA

**What we offer |** You will be part of a very dynamic team in a technology oriented and progressive working environment. We offer competitive compensation and benefits combined with growth opportunities in our fast growing Tool business.

**Are you interested?** Please submit your resume together with your salary expectations, job history and possible start date to:
